MFRS: Industrial Vacuum Cleaners, Dust Collectors & Blowers

BAG DUST COLLECTOR

BAG DUST COLLECTOR

Unevac industrial bag dust collectors utilize advanced baghouse filtration technology to efficiently capture and remove fine particulate matter generated during various manufacturing and processing operations. Designed for high-capacity dust collection, these systems employ durable filter bags made from specialized fabrics that withstand extreme temperatures and abrasive dust, ensuring prolonged service life and consistent performance.

APPLICATIONS:

- ✓ Wood Industries
- ✓ Textiles Industries
- ✓ Precision Automotive Components Manufacturing Industries
- ✓ Packaging Material Manufacturing Industries
- ✓ Interiors design Industries

SPECIFICATIONS:

Models	UVDC - B(10-100)	Dimension (mm)	Ref Design Catalogue
Power (hp)	1 - 10	Noise Level (db)	65 - 72
Voltage	415 V & 50 Hz	Collection Capacity (lit)	80 - 200
Air Flow (m3/hr)	950 - 8500	Filter Type	Bag Type
Suction (mm of WG)	100 - 300	MOC	MS Powder Coated
Suction Port Size (mm)	100 - 200	Weight (kg)	60 - 300

SPECIAL FEATURES:

- Durable & Specialized Filter Bag Materials with Fine Mesh
- Multiple Bags/Compartments Arranged In Modules
- Optimized Air Flow Design
