FUME EXTRACTOR

A fume extractor is a device designed to remove harmful fumes, smoke, and airborne contaminants generated during processes like welding, soldering, chemical handling, or laser cutting.

SPECIAL FEATURES:

- ✓ **Flexible Extraction Arms / Nozzles:** Enables efficient capture right where fumes are generated.
- ✓ **Protects Worker Health:** Removes toxic fumes and harmful gases, reducing respiratory and long-term health risks.
- ✓ **Reduces Fire and Explosion Risk:** Captures flammable fumes before they accumulate.
- ✓ **Low Maintenance:** Filter replacement and cleaning are straight forward with monitoring systems.

SPECIFICATIONS:

Models	UVFE (10-30)	Dimension (mm)	Customized
Power (hp)	1-3	Noise Level (db)	65 - 72
Voltage	415 V & 50 Hz	Filter Type	Cartridge Filter
Air Flow (m3/hr)	950-2100	Filter Cleaning Method	Reverse Pulsejet
Suction (mm of WG)	100 - 150	Weight (kg)	80 - 175
Suction Port Size (mm)	100 - 150		

APPLICATIONS:

- ✓ Welding and Metalworking Industries
- ✓ Electronics and Semiconductor Manufacturing
- ✓ Laboratory and Research
- ✓ Printing and Additive Manufacturing Industries
- ✓ Laboratory Chemical Extraction Industries
